RAISE

Every London investor on one map,
matched to your pitch.

Anson, Yong, Magnus, Min

MEET SANTI

6 months to his first verbal yes

He went down rabbit holes to dead ends, pitching investors with no relevance to his start-up.

Month 0

Starts raising, no network

Dead end

An intro via mum's yoga friend

Dead end

Investor in the wrong space

Dead end

Another rabbit hole

Month 6

First verbal agreement

WHO IT IS FOR

Current Tools Aren't Fit For Young Founders

Category	What it gives	What's missing
Big paid databases	Deep investor data	Priced for funds, not new founders
Free founder lists	A list of names to start	No matching system
Warm-intro tools	Routes through your contacts	Needs a network you don't have
VC review sites	Founder opinions of VCs	Unstructured
AI intro tools	Automated introductions	Random matches, no reasons shown

Raise is.

THE MAP

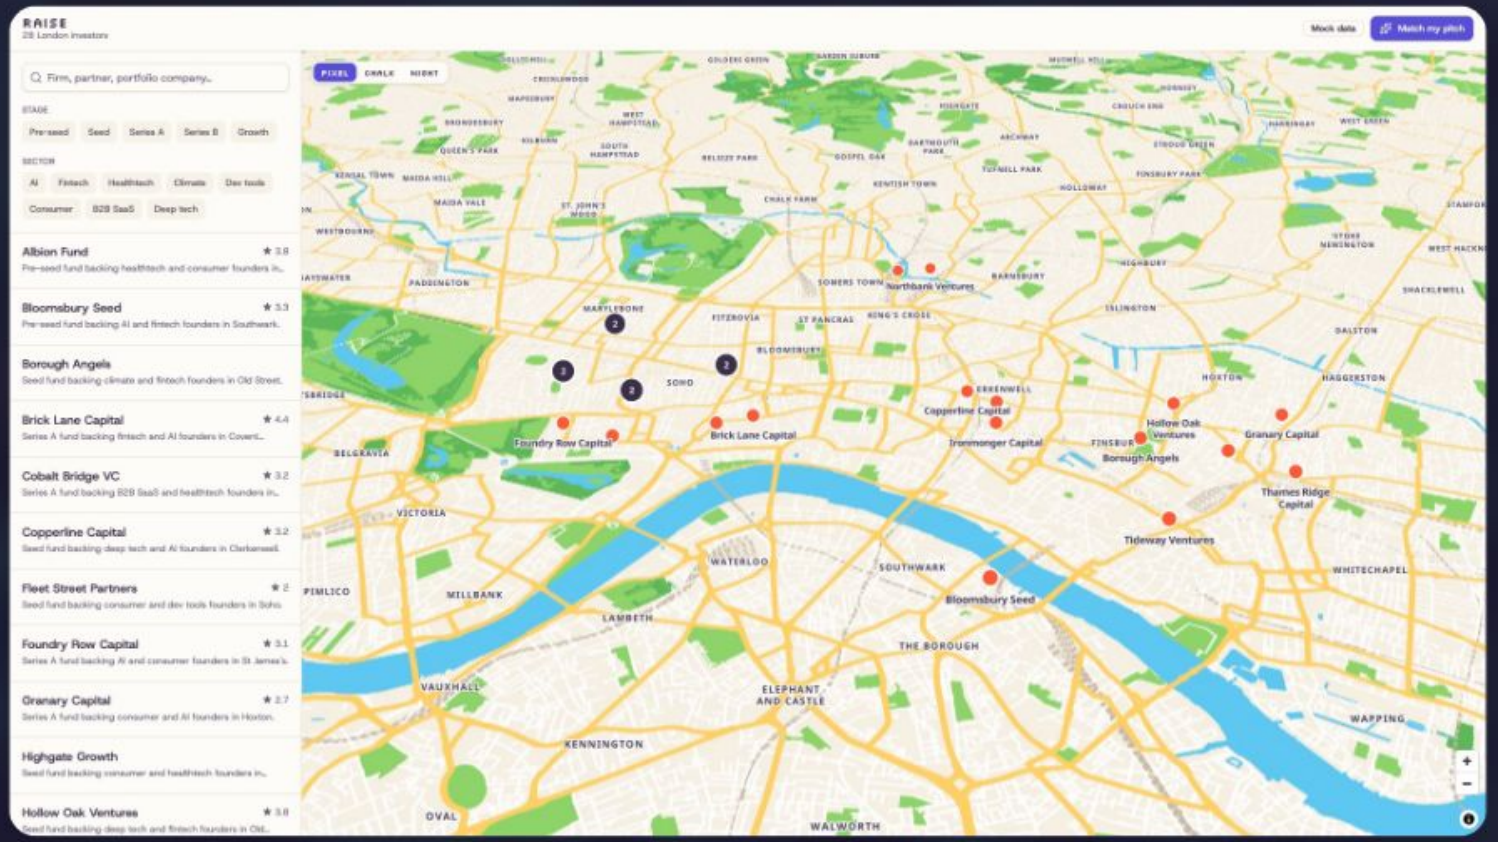

Every London investor, on one map

FILTER

By stage, sector and cheque size

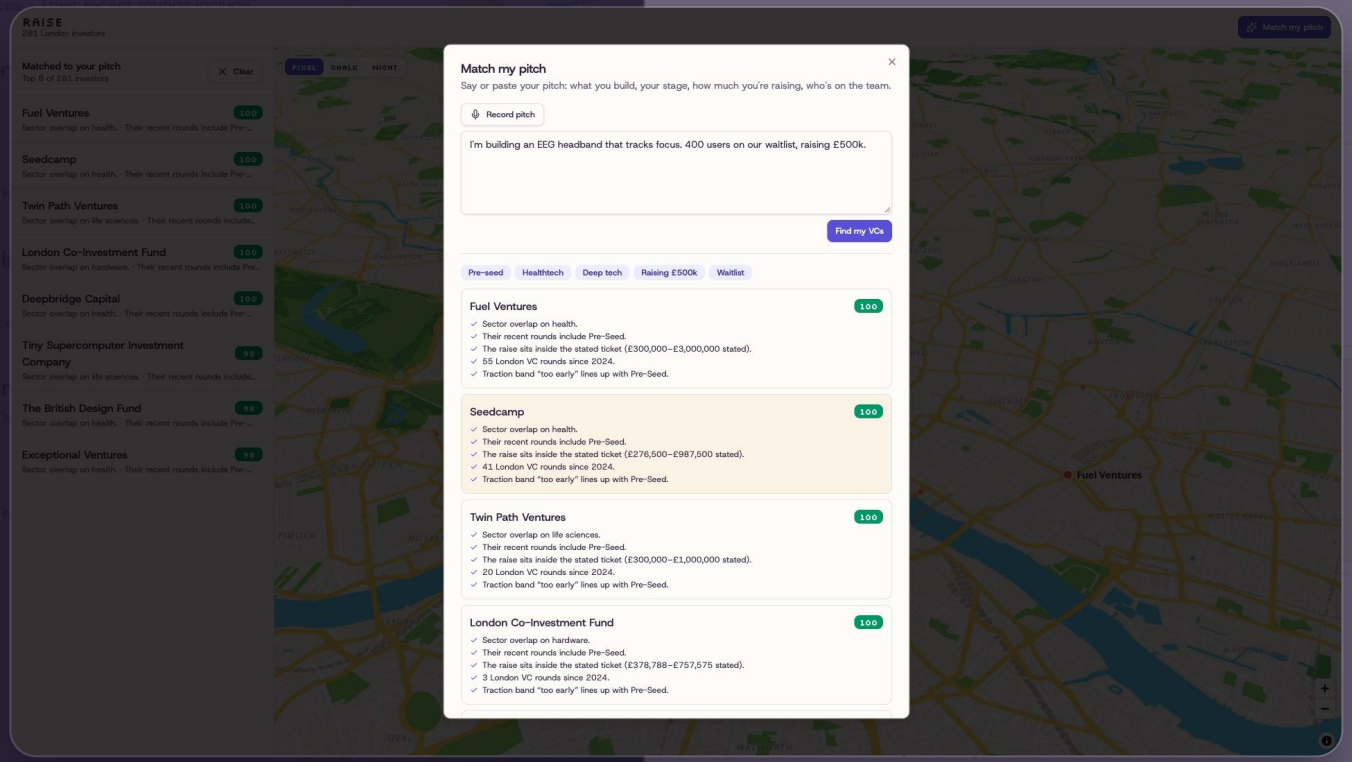

PROFILES

Partners, portfolio and cheque size for every firm

THE MATCHER

Give your pitch. Get your investors.

1. Paste your pitch.
2. Raise reads stage, sector, raise, traction and team.
3. It ranks investors out of 100 and shows why.

SCORE OUT OF 100

Stage	40
Sector	35
Raise vs cheque	20
Activity	5

TRUST

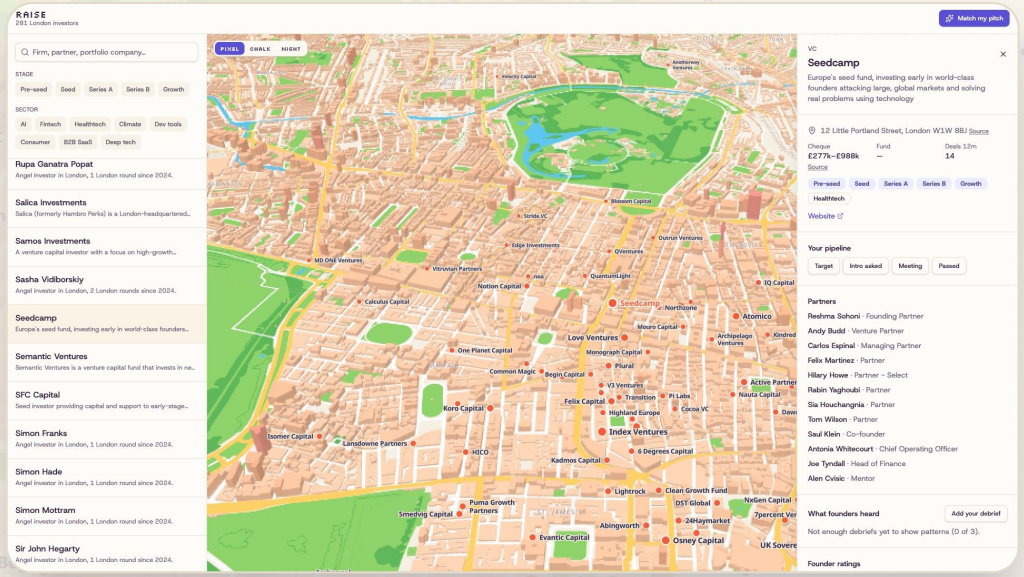

Honest signal, not gossip

FOUNDER RATINGS

Designed so only verified portfolio founders can rate: four structured scores and fixed tags, no free text.

MEETING DEBRIEFS

The outcome, why they passed and what they pushed on. Shown only once 3+ founders answer, so individuals are hard to identify.

UNDER THE HOOD

How the data flows

01 COLLECT

AI agents

Gather investor, partner and portfolio records from public sources

02 IMPORT

Make import

Cleans and maps records into the database

03 STORE

Supabase

Investors, ratings and debriefs

04 PRODUCT

Raise app

Map, matching and profiles

London first

281 London investors mapped

Demo runs on real data

HOW WE SCALE

London first, then every UK city

£12.3bn
equity invested in UK smaller businesses in 2025

57%
of it went to London companies (£7.0bn)

801,864
new UK companies, April 2024 to March 2025

2%
of UK equity went to all-female founder teams

1 LONDON
281 investors mapped. Win founders here first.

→

2 UK CITIES
Same AI agents, new city. Chase the 43% outside London.

→

3 LICENSING
License the matcher to accelerators and universities.

BUSINESS MODEL

Free for founders. Paid where the value is.

FOUNDERS

Founder Pro

£15/month

Unlimited pitch matches while you raise. The map stays free.

INVESTORS

Claimed profiles

£99/month

Firms keep focus and cheque size current, so they get better-fit pitches.

PARTNERS

Sponsored listings

Per event

Accelerators and events reach founders, labelled and kept out of the ranking.

For comparison: Crunchbase Pro ≈ $49–99 a month. PitchBook ≈ $12,000–40,000 per seat a year.

Our prices are proposals we are testing. Paying never changes how investors rank.

ROADMAP

From demo to every founder's first raise

NOW

Built, on mock data

- Investor map
- Pitch matching
- Founder ratings
- Meeting debriefs

NEXT

From demo to real use

- Real investor data
- Verified founder accounts
- Live voice input
- Pilot with founders

LATER

Beyond the map

- Investor events
- More cities

THE ASK

What we need from this room

FOUNDERS

Raising now? Pilot Raise and tell us where the matches are wrong.

INVESTORS

Claim your profile so founders see your real focus and cheque size.

DATA PARTNERS

Run raise with your next cohort and help us shape license

Finding an investor should take a pitch, not a network.
